

Chapter 18
Electrical

18.03 Permits

(Ren. #39-96)

(1) **REQUIRED.** The Electrical Inspector shall issue permits for the execution of electrical installations for light, heat or power upon the filing of proper application, which shall be made on forms furnished by the Inspector and shall prescribe the nature of the work as well as such other information as may be required for inspection. A plan shall be required to accompany the application at the discretion of the City Electrical Inspector. No electrical work shall be done unless a permit has first been obtained. Permits in transit are not considered issued until delivered and received in the Building Inspection Department.

(2) **MINOR REPAIRS.** No permit shall be required for minor repairs or alterations repairing drop cords, flush and snap switches, replacing fuses, changing lamp sockets, etc., where the total labor and material comes to less than \$25.00.

(3) **"OUTLET" DEFINED.** The term "outlet" as used in the Electrical Code means any opening for the connection of a current consuming or controlling device.

(4) **FEES.** (Am. MSC '85; #54-84) (Am. #42-03) The fees shall be as established and amended from time to time by the Common Council and are hereby incorporated by reference. A printed list of current fees established pursuant to this section shall be kept on file at the Office of Community Development and made available to the public upon request.

(5) **INSPECTIONS.** No inspection will be made until after permit has been issued. Inspector will be called for rough and final inspections and all work approved. Conduit or conductors shall not be covered, buried or concealed, on grade, behind walls or in a trench unless inspected and approved.
